MATTRESS PROTECTOR

DESIGNED FOR COMFORT

MADE FOR ELEGANCE

ABOUT US

Based in Denizli — a renowned hub for textile production — our company specializes in the manufacturing of high-quality mattress and pillow protectors. We offer both waterproof and breathable (non-waterproof) options, tailored to meet the diverse needs of our customers.

With flexible production capabilities, we can manufacture in custom sizes, fabric types, and GSM according to client specifications. All our materials are carefully selected to ensure comfort, durability, and hypoallergenic performance.

Our product range is widely used in homes, hotels, hospitals. Waterproof protectors safeguard mattresses against stains, spills, and bacteria, while breathable protectors allow better airflow, helping to regulate temperature and minimize sweating for a more comfortable sleep experience.

Combining textile expertise with a commitment to quality, we are proud to be a trusted production partner in both domestic and international markets.

MATERIALS

■ COTTON

COMPONENT	SPECIFICATION
Total Weight	160 g/m²
Top Layer	125 g/m² quilted fabric
Quilting Fabric	80% cotton, 20% polyester
Backing Layer	
Structure	Multi-layered with quilting and backing

A natural fiber known for its softness, breathability, and hypoallergenic properties.

Excellent airflow — allows the skin to breathe

Gentle on sensitive skin

Eco-friendly and biodegradable

Soft to the touch and durable after washing

Best for: Everyday use and warm climates

■ MICRO

COMPONENT	SPECIFICATION
Total Weight	130 g/m²
Top Layer	95 g/m² quilted fabric
Quilting Fabric	100% polyester
Backing Layer	
Structure	Multi-layered with quilting and backing

A synthetic, ultra-fine fiber that creates a smooth, dense fabric surface.

Durable and long-lasting

Lightweight and soft

Dries quickly

Easy to wash and maintain

Best for: Budget-friendly collections, hotels, and children’s beds

MATERIALS

■ QUILTED

COMPONENT	SPECIFICATION
Filling	120 g/m² polyester fiber
Top Fabric	57 TC polycotton
Quilting Fabric	80% cotton, 20% polyester
Backing Layer	30 g/m² nonwoven fabric
Structure	Quilted (stitched) multi-layer

A lightweight synthetic filling used in quilted protectors to provide added comfort and softness.

Soft and breathable structure

Retains warmth in winter, stays cool in summer

Maintains shape after washing

Enhances mattress comfort without adding heaviness

Best for: All-season mattress protectors and comfort upgrades
